Parallel Sessions

You will be given the opportunity to select one option for the morning and afternoon period when registering.

AM: Connecting people, connecting support

Description: This session will share how we are working collaboratively to bridge the gap between policy and practice in Scotland. Bringing together people with lived experience and professionals to make it happen! This interactive session will provide examples of where we know things are working well in post diagnostic support, care co-ordination in the community and hospital settings. Improvement is happening....you can do it too!

CHAIR: Michelle Miller, National Improvement Lead, Focus on Dementia

Julie Miller, Associate Improvement Advisor, Focus on Dementia

Elaine Hunter, National Allied Health Professions Consultant, Alzheimer Scotland

AM: Caring by design: function vs aesthetics

Description: The importance of design & innovation in future dementia care environments. Areas of focus will include the HammondCare approach to care home design in Australia; Alzheimer Scotland's approach to dementia resources centres as public spaces and insights into product design and domestic spaces.

CHAIR: Colm Cunningham, Director of Dementia Centre, Hammond Care

Joyce Gray, Deputy Director of Development, Alzheimer Scotland

Ross Hunter, Director, Graven

Jeni Lennox, Project Manager, Dementia Circle

AM: Nutrition, food & drink

Description: Developments, insights and solutions to some of the food and drink challenges associated with dementia, including a chef's approach to dignified and enjoyable meal times; strategies for adopting a risk reduction diet; simple adaptations to make the kitchen a safe and enjoyable heart of the home.

CHAIR: Barbara Sharp, Policy & Research Advisor, Alzheimer Scotland

Dr Martha Clare Morris, Associate Professor, Rush University Medical Center, Chicago

Peter Morgan-Jones, Executive Chef and Food Ambassador, HammondCare

AM: Make it equal: all of our roles in equalities and dementia

Description: A 2016 report 'Dementia and Equality' from NHS Health Scotland and Alzheimer Scotland found a number of population groups to be under-researched in research and that practice responses varied hugely. With a particular focus on lesbian, gay, bisexual and transgender people, and people with learning disabilities this session will explore what we know, what we don't know, ongoing work and what we can all do to better support people with a range of diverse backgrounds and needs who are affected by dementia.
