

Our Next Step

From 3rd July visiting will be reintroduced into the care home – however it will still be slightly different to what you are used to.

You will need to book your visit – all visiting must be prearranged with the care home management team. You will be sent a booking form to read prior to your allotted 30 min timeslot.

You must arrive 5 mins before to sign a printed copy which will be held on file and perform the relevant infection control procedures.

Only one visit per week per family to ensure we have a fair and equal opportunity for all families to participate in a way which we can facilitate.

#Together,
Step
By
Step

One family member will be designated per resident – this must be the same person who visits each week.

You will be screened at every visit with your temperature being checked and staff asking you questions.

There will be no physical contact allowed and you must wear a face covering at all times to protect your loved one.

The Care Home must be covid free for 28 days before visiting can be introduced. For more information ask your care manager for more details.
